Gives cool and much appreciated variety. It's evident that a lot of effort went into this. Thank you!. Nice skins, fair price.. i really freaking hope theres a skin pack like this for every character that gives them unique weapons wiht unique sounds like kingpin and oni's weapons.. Not cause I have an issue with it but at AOM current state this should be free. Well made skins though.. Pros

*Oni is a bad\u2665\u2665\u2665\u2665\u2665this skin shows it

*Always wanted to be a vice king than a saint Kingpins suit makes you feel and look like one

*You thought Scheherazade wasn't ninja enough well here you go

Cons

*It should have been free but its only 2 quid. Non-essential cosmetic DLC. Great skins for each of the Firing Squad agents. **3V3**
