About This Game

In a world of growing xenophobia, Scotsmen living abroad fear for their right to practice their culture. Already, reports are emerging of foreign governments and vigilantes shutting down the haggis factories that were once the lifeblood of local Scottish communities. One Scotsman has the power to stand up to the world. His name is Alfredo.

A humble barman from Northern Scotland, Alfredo rose to prominence when he conquered England, Wales, and Ireland, after the English cricket team and a group of Irish potato farmers trashed his pub. Taking on the whole world however, will not be so easy. So Alfredo gathers together the finest fighting Scotsmen and sets forth in his Bagpipe Airship, on a mission to liberate global Scottish communities, one haggis factory at a time.

- Fight 24 zany enemies, from gun-toting Rednecks to Kangaroo Riding Aussie Shielas in bikinis.

-
- Face down 6 evil bosses, including Napoleon, Mussolini and Oda Nobunaga.
 - Build 12 types of towers, from the traditional Scottish Porridge Cannon, to the foreign French Fondue Hose.
 - Command 7 hero characters, including Alfredo, and foreign heroes such as Julius Caesar and Buddha.
 - Fight through the 24 level campaign, or stage your ultimate battle in skirmish mode.
 - Operate the Kilt-Lift-O-Matic, which provides a strong updraft for Scotsmen to descend from the Bagpipe Airship using their kilts as parachutes.
 - Capture and hold oat fields to produce porridge to feed your army.
 - Purchase upgrades for your Scotsmen and towers using money earned during levels.

Title: Defend the Highlands: World Tour

Genre: Indie, Strategy

Developer:

Kilted Camel

Publisher:

KISS ltd

Release Date: 26 Jan, 2018

a09c17d780

Minimum:

OS: Windows XP Service Pack 2, or higher

Processor: 2 GHz Dual Core Processor

Memory: 2 GB RAM

Graphics: Video Card with 512 Mb Memory

DirectX: Version 9.0c

Storage: 2 GB available space

English

LEVEL 1

First review ive ever written. Best game ive ever played. Hands down 5/7! Bang for the buck.

I hope there will be a DLC, and a "The Juicer 2 - Revenge of the pumpkins"

. more areas more enimies more fun. I'm glad I picked this title up at one of the sales - it was a great historical mystery with many twists and turns and my inner historian was quite intrigued by the subject of King Ludwig II. I also appreciated that the hidden object scenes and puzzles were a little challenging, as in, you really have to look and sometimes use objects from your own inventory to access items in the puzzle. The mini games were a good challenge, though I admit to skipping some of them out of frustration... Besides the hidden object scenes, I enjoyed the 'hacker' challenges the most.

I did wonder whether I should've tried to play it in German simply for language study's sake, seeing as it was set in Germany and many of the inventory maps included German keywords... Something to try next time.. After buying this pack, I cant honestly Justify recommending the price point to other players.

Its got some neat items but the equipment involved is a downgrade to the Sports bundle.

The Advanced Licenses should be a token to be used. Having all 3 run down as soon as you buy this is an incredible waste of value.. To me, The Spatial is a good alternative to Spacebase DF-9.

I really enjoyed building my base in The Spatial, receiving visitors and meeting different kind of "races" with specific needs. The game can be repetitive but it always gives back good rewards (new buildings, rooms, products, planets, missions...). I had a great time playing it and i think i will play it again from time to time.. I like it but how do i install?

Phantasma does an excellent job at capturing a very unique but creepy atmosphere. There are no jump scares per say but the foreboding feeling you get traversing through the puzzles laid out was very unique and worthwhile indeed. The dark narrative is reminiscent of other horror games I've tried but very stand alone in its own respect.

The puzzles themselves are challenging while not impossible. There is also a hint feature now if you do happen to get stuck.

The choice in locomotion is a huge plus catering to the players comfort level.

I still have not finished the game but so far I'm around 3 hours in and very pleased with the experience. Highly recommended!. Don't Buy this game if you don't know how to HACK! YOU BEST BE A UBER HAXOR! :D. The idea of experiencing a game from a playtester perspective is one, that made me curious. Sadly, this one can't keep up. Instead of checking the gameworld for inconsistencies and problems, that might arise of oversights and unexpected player behaviour (maybe even with occasional updates, that fix some errors and implement a few new ones), this game is rather a lineup of minitasks with each ending on a bug.

While the pricing is a reason to keep expectations low, being led through short levels, where instead of a victory screen the reward is a bug report, does neither feel satisfying as a game nor as a testing simulation. Also the graphics make me motion sick.

This could have been good. But to get there, one would need to create the whole game anew.. Decent game, But dead on arrival.. Cute little HOG. Perfect for perhaps playing with kids. Some of the puzzles are surprisingly difficult considering the age of the market that the game seems to be aimed at and younger players will need assistance in places. Overall, the game is nicely presented with strong voiceovers, sound effects and music. The graphics fit the setting and my one gripe is that the HO scenes seem to be lower definition than the rest of the game, making finding some objects more difficult than need be, due to low detailing.

Having said that, if you can deal with the "Disney Princess" theme and story, it's a solid HOG, even for more experienced players.. This is an exceptional, slow-paced puzzle/platformer for gamers of all skill levels.

The gameplay is solid, the story is simple, and the music is excellent.

If you like to challenge your puzzle-solving skills, give this game a go.. Pac-man with shooter dynamics tackled on... the big drawback is the muddy graphics make it more of a chore to play than it should be. The game would benefit if it was just a pure top down 2D game instead of using its ugly 3D isometric view.

Otherwise for 2 quarters might be worth looking into if the base gameplay sounds at all appealing to you.. Literally the worst game I have played in my entire life.

10/10
